

ICE GROUP

**- ICE GROUP -
IGLO LINE
extruding and hardening tunnel
2016 INTERESTING PROJECTS**

(July 2016)

SPAIN, project No. 4045

PROJECT ASSUMPTIONS:

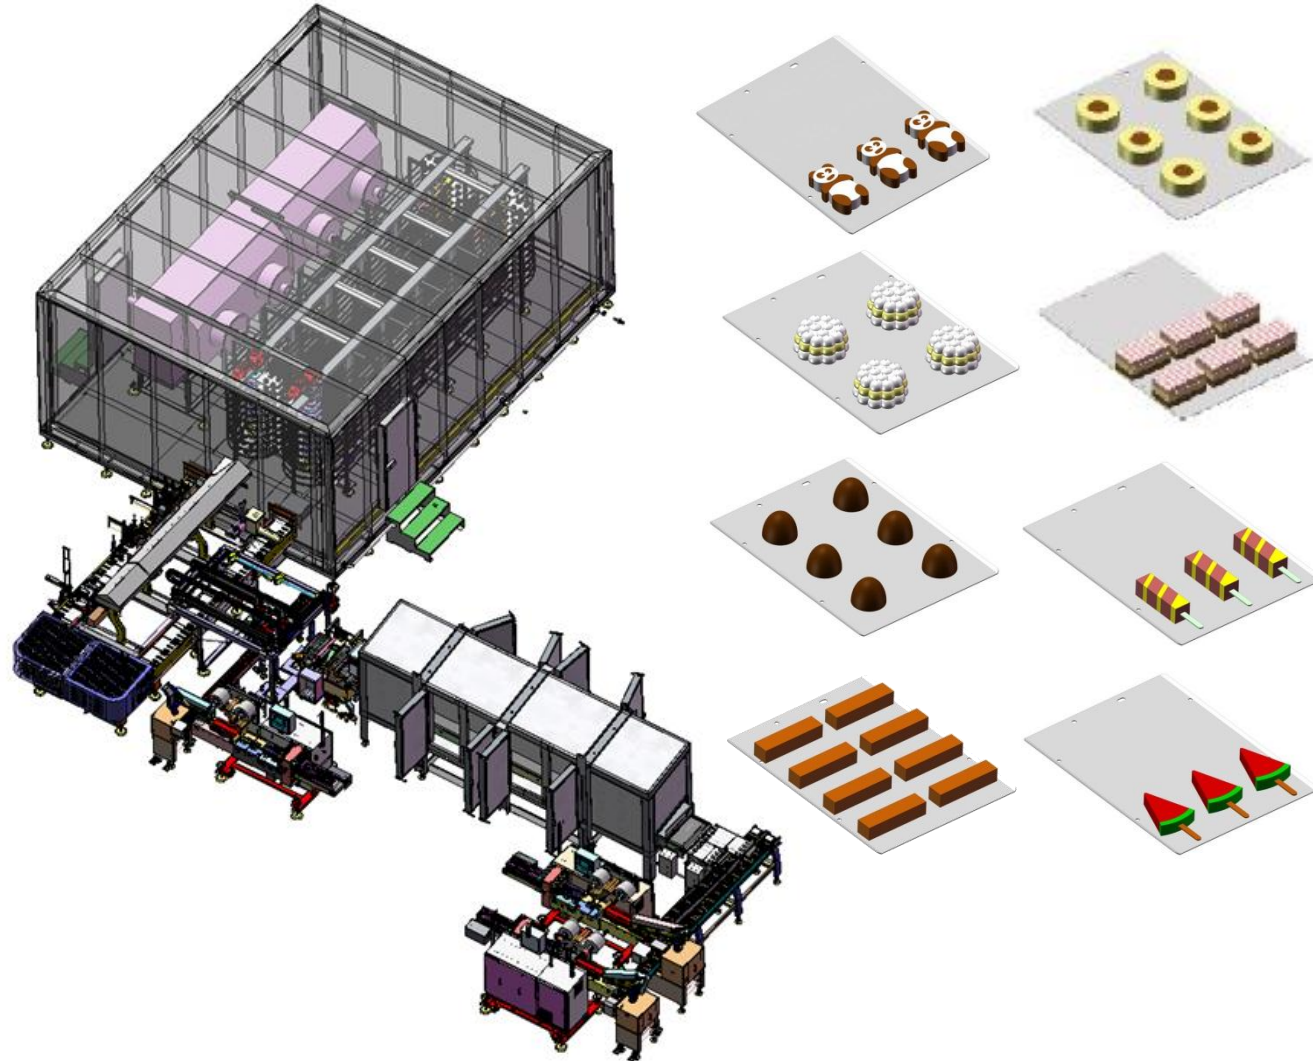

Exchange of an exploited tunnel of Danish production to a new machine, meeting all contemporary technical and hygienic requirements

TARGET ACHIEVEMENT:

Project entrusted to Ice Group after winning in competition with international concerns. Customer's main argument: flexibility in relation to tunnel elements arrangement, technical and constructional efficiency, flawless communication in German language.

SPECIAL REQUIREMENTS:

New tunnel had to fit exactly in the place from of the exploited tunnel.

Siemens latest components and Ice Group make individually designed software

SWITZERLAND, project No. 3957

PROJECT ASSUMPTIONS:

Exchange of an old, exploited tunnel with a new one, keeping some existing accessories, resulting in safer, more hygienic and cost-saving work

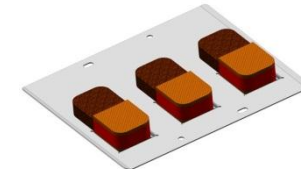

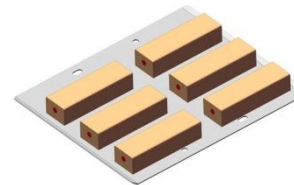

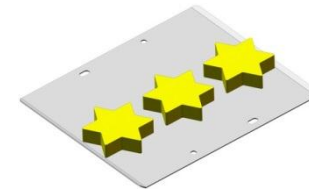

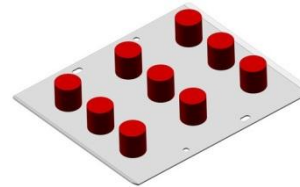

TARGET ACHIEVEMENT:

Project entrusted to Ice Group after winning in competition with international concerns. Customer's main argument: flexibility in relation to tunnel elements arrangement, technical and constructional efficiency, flawless communication in German language.

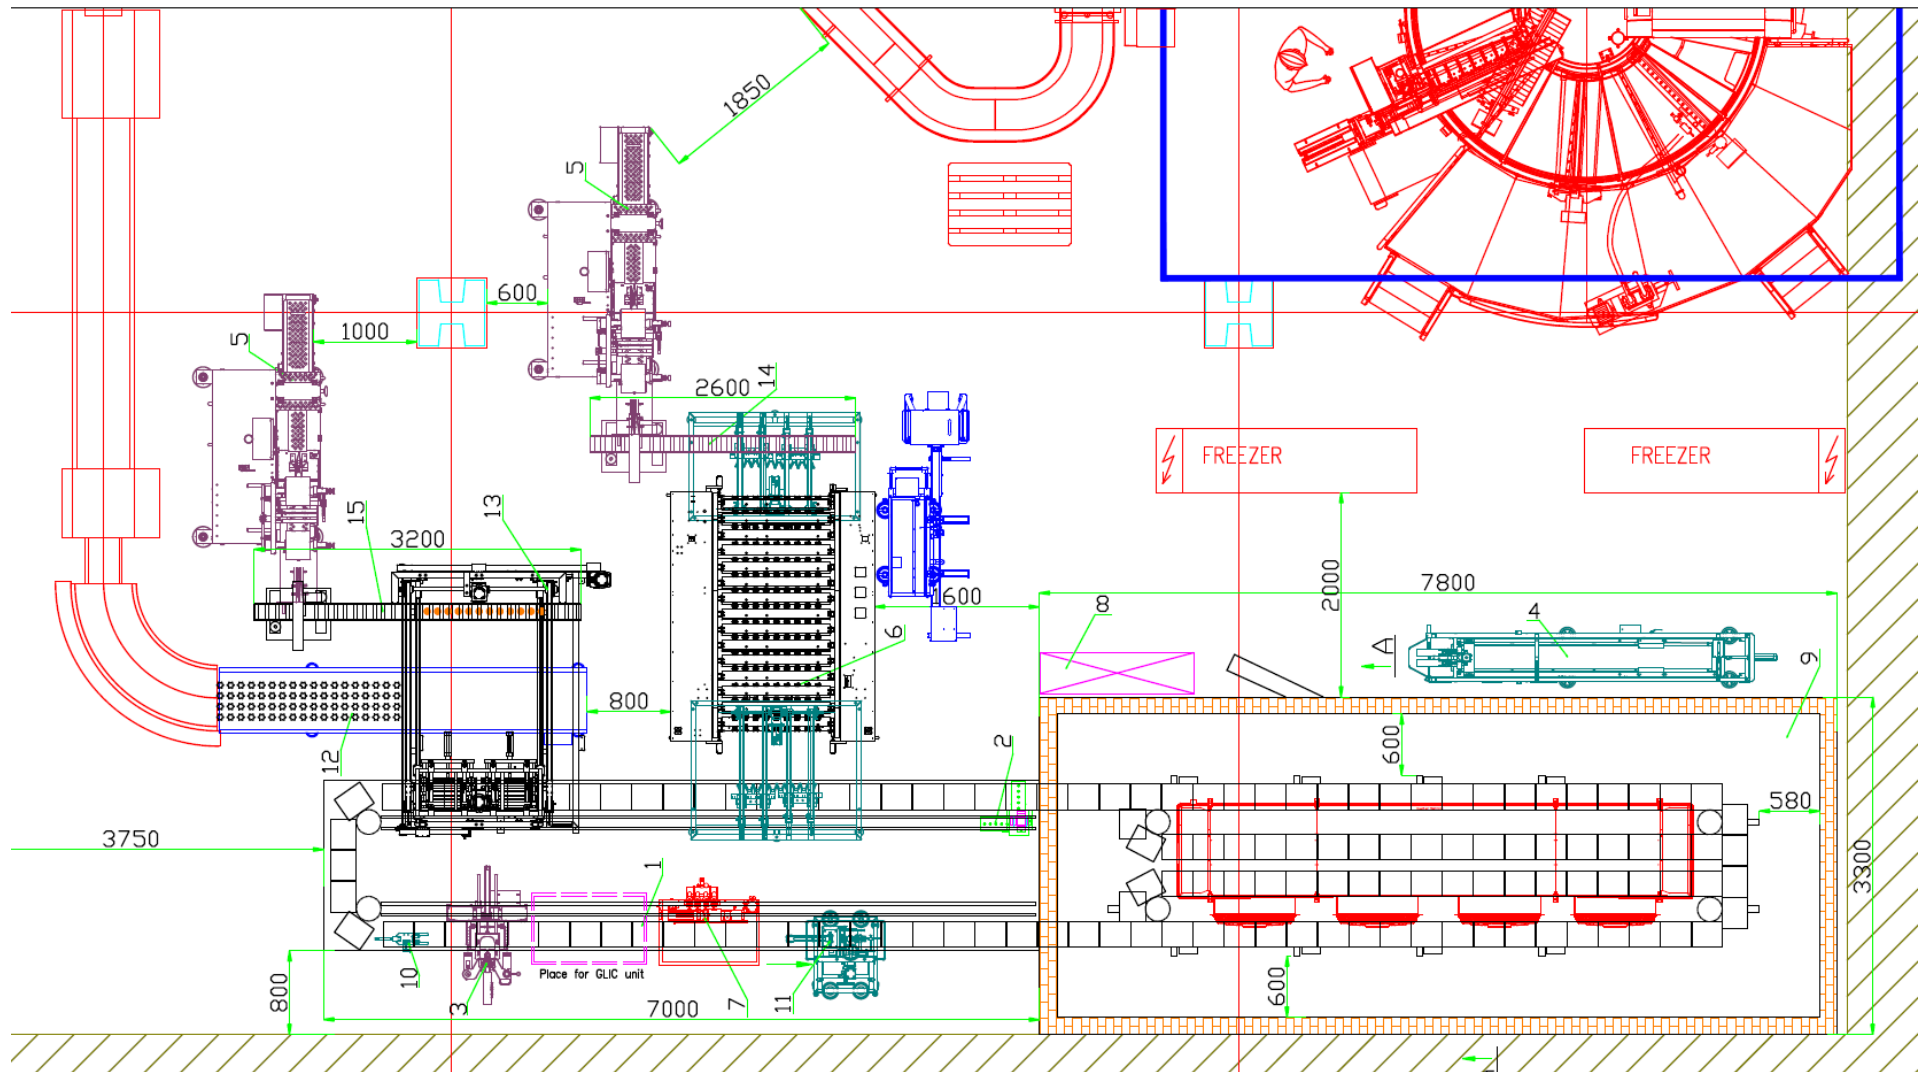

SPECIAL REQUIREMENTS:

- adjustment to the Customer's place (strictly limited and specific layout),
- full adjustment to requirements concerning components, e.g. Allen Bradley controls
- increased safety level, by providing safety shields conforming to the Customer's most restrictive safety requirements
- higher level of hygiene – servo engines, inside chamber panels of stainless steel - completely welded
