Place of installation: **Greece**
Project No. 5525 – **Iglo Line 10.000** for mini sticks and mini cones

Wet tests and production start

ICE GROUP

Selected technical service works – Winter/Spring 2021

In the season 2020/2021 Ice Group has realized 85 projects, substantially increasing its turnover.

Currently we are in the course of realization of orders already taken in.

Most probably we won't have any break between this and the next production season.
